

**\*\*Job Title:\*\* IT Project Manager**

**\*\*Company:\*\* Amazon**

**\*\*Location:\*\* Seattle, WA**

**\*\*About the Role:\*\***

We're seeking a detail-oriented IT Project Manager to lead strategic projects across Amazon's technology stack. You will be responsible for ensuring timely delivery of technical programs, stakeholder communication, and managing resources effectively.

**\*\*Responsibilities:\*\***

- Define project scope, goals, and deliverables.
- Track timelines, milestones, and budgets.
- Coordinate across tech teams, vendors, and stakeholders.
- Conduct risk assessments and develop mitigation strategies.

**\*\*Minimum Qualifications:\*\***

- Bachelor's degree in Project Management, Engineering, or related field.
- 4+ years of experience in IT project management.
- Strong communication and leadership skills.
- Proficiency in Agile, Scrum, or Waterfall methodologies.

**\*\*Preferred Qualifications:\*\***

- PMP, PMI-ACP, or equivalent certification.
- Background in software or hardware product development.
- Experience with JIRA, Confluence, or MS Project.
